

APR Energy, a Leading Provider of the Most Diverse & Innovative Temporary Power Generation Solutions, selects Global Software Inc's Spreadsheet Server for use with JD Edwards EnterpriseOne

JACKSONVILLE, FLORIDA, USA (April 19, 2011) - [TeamCain](#), a renowned JD Edwards software and consulting services partner, and [Global Software, Inc.](#), the number one provider of Microsoft® Excel-based automation solutions to the world's leading ERP platforms, announced today that [APR Energy](#) (APR) has selected Spreadsheet Server to automate their financial analysis capabilities in Microsoft® Excel. APR Energy, a leading global provider of temporary power generation solutions have now gained the advantage through Spreadsheet Server of combining reporting, drill down and ledger inquiry into one application. This global supplier of comprehensive and highly reliable temporary power will find a reliable solution with Spreadsheet Server to "Excel-erate" their financial reporting and analysis. With recently announced contracts in Senegal, Burkina Faso and Peru in addition to a contract extension in Ecuador, APR Energy's already globally renowned organization is expanding rapidly.

"Due to the substantial growth of APR, we have selected TeamCain as our partner to provide APR with a more advanced financial reporting and analysis tool that would be beneficial to both our organization and ultimately, our customers around the world," said APR Energy Controller, Mike Sharp. *"With APR broadening both its product offerings and global power plant locations, we want to be able to continue to offer our customers the highest quality of service in everything that we do, including our financial packages."*

About APR Energy

APR Energy specializes in the sale of reliable and efficient electricity through the rapid deployment of Customized Turnkey Power Solutions. APR's power generation solutions coupled with comprehensive operation and maintenance services and flexible commercial terms have established APR as a leader in the power industry. With temporary power contracts currently in over 9 countries globally, APR Energy continues to develop new business in Africa, Latin America, the Middle East and Asia.
